

The Arapahoe Sertoman

THIS WEEK IN REVIEW Aug 9, 2018

This week's Reporter – Don Smith

Song: Bob Buckland **Pledge:** Pat McKim **Prayer:** Clarke Bennett

Guests: Jim Perkins introduced Alice (aka Alice), his wife; Glenn Combellick introduced his son-in-law Mike Showalter; Bob Buckland introduced his wife Betty.

Fines: Bob and Glenn for guests; Bruce (cat Dr.) Elsey for the newspaper story about him moving his kitty products company to Wyoming.

Announcements: It has started, our major fund raising event kicked off this week with The Bronco Football Pool. No image of the pool is available.

Dave Miley says we have the Top Golf event filled, August 12 from 2 to 5pm. Any questions see Dave.

Norm mentioned that Tom Fry had a new knee installed but is having some other problems but hopes to be back maybe next week.

Injury report for the week: Pat's leg is healing but he is on crutches. Bill's foot seems to be about healed.

Tim is looking for people (businesses) to advertise in the Sertoma Directory. If interested, see Tim. He also reminded us about his wife's sorority Beta Sigma Phi Charity fundraiser for Second Wind (Suicide prevention for all school age children). \$10 buys you unlimited pizza, garlic knots and fountain drinks at the Garlic Knots Restaurant August 16th from 5 to 8pm. If you didn't get a ticket today, see Tim, I bet he can get you one.

Put your thinking caps on and come up with ideas for programs. Our Directors are running out of ideas. Also, how about some club events? Miley mentioned one at Top Golf.

Our New Web link...[https://arapahoertoma.org/](https://arapahosertoma.org/) built with the help of Karie Farr, whose business is www.ideashop.com. The old web address will not exist shortly so bookmark the new one.

Sertoman of the Day: Norm "Sheet Rock" Schillo returned again to the podium to tell his story and how it began. His ethnic background is German. Almost every male on his family tree earned his living as a carpenter. Norm's father became the superintendent of specialized housing construction.

Norm Schillo, born 10 Sep, 1927 (he will be 91 next month) and raised in north Denver (and proud of it). He is proud to now be an octogenarian. He attended public school in north Denver. Of the 5 elementary schools, 2 have been demolished. He went to Skinner Jr. High and North High.

Norm went into the Navy in 1945, the same day he graduated from high school, for WWII. The war ended while he was in boot camp and although he didn't get to Sail the High Seas, he did get to Puget Sound. He messed around for a couple years after the Navy. His father finally got a hold of him and convinced him to pick a trade. He went into bricklaying. He started his own company after 7 years. He ran that business for 13 years. Then had a marina in Granby for 2 years and then sold real estate for 2 years. He eventually got into

homebuilding and did well for 15 years before the economy dropped out so he retired. Norm worked with Mike Magee and Will Martinez when he was learning what manual labor means.

He had 3 daughters with his first wife, Mary Lou. He met his second wife Ann while playing Tennis with Tommy Fry at Pinehurst and they were married in 1997. From that marriage he inherited several more family members. He was married to Ann for 15 years; she passed away not too long ago.

Norm had 3 daughters but one has passed away, 5 g-kids and 11 gg-kids on his side. Ann had 4 sons and 10 g-kids & 1 great grandchild. Bill Anderson brought him into the club. Listen to Norm Schillo.mp3

Program: Bob Buckland introduced one of his grandsons, Chris Beaudreau. Chris works for 3D Systems here in Denver and gave a slideshow presentation of medical 3D printing that his company does.

Born from a spark of inspiration in 1983, 3D Systems has run on innovation for over 30 years. Co-founded by the inventor of 3D printing, Charles (“Chuck”) Hull, 3D Systems has grown into a global 3D solutions company focused on connecting our customers with the expertise and digital manufacturing workflow required to solve their business, design or engineering problems.

From digitization, design and simulation through manufacturing, inspection and management, our comprehensive portfolio of technologies provides a seamless, customizable workflow designed to optimize products and processes while accelerating outcomes. With advanced hardware, software and materials as well as on demand manufacturing services and a global team of experts, we are on a mission to transform businesses through manufacturing innovation. <https://www.3dsystems.com/our-story>
